# Solid Wood Pivot Front Door | JuSen

SKU: 1601513615427 | Category: Wood Doors

## Product Overview

Engineered for residential security and architectural presence, this pivot front door combines a solid wood core with a reinforced internal structure for villa-grade external use. Certified to EN 14351-1 for external door performance, the design features a concealed multi-point locking system integrated into a solid wood slab, available in thicknesses from 60mm to 100mm with optional steel reinforcement plates. The pivot hardware system supports doors up to 300 kg, ensuring smooth operation for oversized main gate applications.

## Key Specifications

| | |
|---|---|
| Material | Solid wood core (Mahogany, Oak, or Teak veneer options) with internal steel reinforcement frame |
| Door Thickness | 60mm / 80mm / 100mm (customizable) |
| Fire Rating | Optional: Up to 60 minutes (EN 1634-1 tested) |
| Core | Solid wood (finger-jointed or glued-laminated) with 1.5mm steel plate reinforcement |
| Finish | UV-resistant PU lacquer, 12 standard RAL colors, or custom stain/paint |
| Max Size | 1400mm x 3000mm (single leaf pivot) |
| Warranty | 5 years against manufacturing defects |

## Available Options

- Size: Custom widths from 800mm to 1400mm, heights from 2000mm to 3000mm
- Finish: Satin or matte PU lacquer, wood stain, or custom RAL color
- Hardware: Concealed pivot hinges (up to 300 kg), multi-point locking system, smart lock integration
- Glass: Optional side-lites or transom with 6mm tempered or 10mm laminated glass

## Applications

- Primary entrance for luxury private villas and residential estates
- Main gate for gated communities or high-end townhouses
- Showroom or boutique hotel main entrance requiring a pivot door statement
- Security-enhanced front door for residential projects with high-end architectural specifications

## Customization Capabilities

Wood species, veneer grain direction, panel carving patterns, and hardware placement can be fully

customized to match architectural drawings. Steel reinforcement thickness (1.5mm to 3mm) and lock types (mechanical, electronic, or biometric) are configurable per project.

## Packaging & Shipping

Each door is wrapped in heavy-duty PE film, corner-protected with foam, and crated in a plywood export box for sea freight. Standard lead time is 25-35 working days after design approval, with FOB shipping from Shanghai or Ningbo ports.

## Why Choose Us

- 20+ years specializing JuSen Doors for villa projects
- In-house wood drying kilns ensure moisture content below 10% for export stability
- Full CE and EN 14351-1 certification for external door performance

## For Commercial Projects — Global Markets

### ?? United States & Canada

- Certifications: UL 10C, WHI, ASTM E119 compliant options available
- Projects: Hotels, apartments, commercial buildings, schools, government facilities
- Highlights: Fire rating: 20 min, 45 min, 60 min, 90 min rated options
- MOQ: Flexible — sample / trial orders accepted for evaluation
- Shipping: FOB Shanghai / CIF to major US & Canadian ports

### ?? Europe & United Kingdom

- Certifications: CE marking, EN 1634-1 fire test, BS 476 options
- Projects: Hospitality, office buildings, mixed-use developments, public sector
- Highlights: CE-certified hinges, locks, closers & panic hardware available
- MOQ: Flexible — sample / trial orders accepted for evaluation

- Certifications: BS 476, UL fire-rated, QSAS / Dubai Civil Defence compliant options available on request
- Projects: Government projects, luxury hotels, high-end residential & commercial developments across UAE, Saudi Arabia, Qatar, Kuwait, Bahrain, Oman
- Highlights: Gold / bronze anodized, high-end wood veneer and custom finishes available
- MOQ: Flexible — sample / trial orders accepted for evaluation
- Lead Time: 25-40 days to GCC ports
- Shipping: FOB Shanghai / CIF Jebel Ali, Jeddah, Doha, Hamad, Sultan Qaboos & more

## Frequently Asked Questions

1. Can I order samples before placing a bulk order?+

Yes, sample doors are available for project evaluation. Sample lead time is typically 7-15 days, and sample fees can be credited back against your bulk order.

2. What is your standard production lead time?+

Standard production runs 25-40 days after deposit and drawing confirmation. Urgent project timelines can often be accommodated — please share your project deadline when requesting a quote.

3. Do you offer custom sizes and hardware configurations?+

Absolutely. Width, height, thickness, finish, hinge type, lock type, closer, panic hardware, and vision panels can all be customized to match your project specification. Send us your door schedule and we will quote accordingly.

4. Which ports do you ship from and what are the Incoterms?+

We primarily ship from Shanghai port (China). FOB, CIF, and DAP terms are all available depending on your project requirements.

5. What payment terms do you offer for commercial projects?+

Standard terms are 30% T/T deposit with order confirmation, 70% T/T before shipment. L/C at sight is also available for qualified larger projects.

6. Can you provide OEM / private label service?+

Yes. We provide OEM manufacturing for distributors, contractors, and project developers worldwide. Your branding, packaging, and labels can be applied to protect your market position.
